PEST CONTROL

PEST CONTROL IS IMPORTANT
FOR MOST BUSINESSES

Our pest control teams work discreetly to ensure this is always kept under control. We carry out a free appraisal of your site and produce a report showing all potential risks. We then create a service contract that ensures you have the correct level of cover for your business needs.

SAVE UP TO 25%
ON PEST CONTROL

We approached PSP as I wanted to see if there were any opportunities to save money across our business. The PSP savings team identified a discrepancy on our energy bills and were also able to provide me with further information on the current market rates allowing me to make better informed business decisions which has resulted in a reduction in our energy bills. We have since gone on to obtain further support on merchant services following an audit of our bills by the team.

Haier Biomedical

PSP were introduced to us by our local BID and have provided us with a strong return on investment against our levy contribution. Their support on utilities has been invaluable, we initially instructed PSP to audit our energy bills and their findings have resulted in a **£3500** credit due to inaccurate billing. Following a short tendering exercise PSP identified over **£68,000** of savings across our electricity and gas renewals. They delivered on their mantra of saving and supporting for us and we would have no hesitation in recommending their services to others.

Gardiner & Theobald

Ripon Museum Trust has just fixed its utility contracts in the most challenging of circumstances with the help of PSP provided by the Ripon Business Improvement District. PSP came to see us and gave us very level-headed and honest advice.

PSP were always on the end of the phone through the process and able to answer our questions calmly, give examples from experiences in the cultural sector and steer us through this exceptionally difficult decision for our organisation. They helped us to break the decision down into manageable chunks and he empathised very well with the situation we faced – escalating prices and no way of knowing what the next 2-3 years held.

Our fixed bills are going to be very challenging for our organisation, but we do at least have some planning certainty and PSP helped us get 'over the line' in a complex environment.
